

Sea chart of the Malacca Strait

DE LORENZO, J.

Oceano Indio. Carta del Estrechio de Malaca y de la Costa Occidentale de Sumatra segun los trabajos mas modernos.

Madrid: Direccion de Hidrografia, 1863-7. Touches of original colour. 980 x 640mm. Blind stamp of the Direccion de Hidrografia.

£480

Sea chart of part of the northern approaches to the Malacca Strait, between Malaysia and Sumatra, marking Malacca and Penang. The Klang River is marked, but Kuala Lumpur is yet of sufficient importance to be shown: founded in 1857 it was not until 1880 it even became state capital. Much of the western coastline of Sumatra is also marked. The lighthouses are marked in colour.
