

A detailed map of Switzerland in fine colour

FADEN, William.

Nouvelle Carte de la Suisse dans laquelle sont exactement distingués les Treize Cantons, Leurs Alliés, et Leurs Sujets.

London, Faden, 1799. Original body colour. 640 x 860mm.

£650

Despite being published in London all the text on this large and detailed map is in French. Faden acknowledges using the trigonometrical readings of Sir George Shuckburgh-Evelyn, taken in 1775. The colour of this example is particularly good.
