

An uncommon Italian map of Iceland

CASSINI, Giovanni Maria.  
 L'Isola d' Islanda.

Rome, 1796. Original colour 355 x 485mm.

£420

An 18th century map of Iceland with a decorative title cartouche of angling, published in Cassini's 'Nuovo Atlante Geografico Universale'. Cassini atlas was not a commercial success so his maps are quite uncommon.
